The *Uniform Standards of Professional Appraisal Practice* (USPAP) contains standards for:

- Ethical Conduct
- Competency
- Disclosure
- Documentation
In Addition to the Standards, USPAP contains guidance:

CURRENT AGENDA FOR THE ASB

- More specificity about communicating with the client (i.e. When does an assignment commence; communication during an assignment and when does an assignment end).
- Review and, if appropriate, revise the current three reporting options.
- What constitutes a draft report?
APPRAISAL PRACTICES BOARD (APB)

- Newly created independent board of the Foundation.
- Established to provide voluntary guidance to appraisers from all valuation disciplines on valuation methods and techniques, particularly on emerging issues.
- We are filling a void. The majority of real estate appraisers do not belong to a professional appraisal society. Where do they get guidance for their practice?
APPRAISAL PRACTICES BOARD (APB)

- Subject Matter Expert (SME) panels are selected to address a specific issue
- Panels provide a draft to the APB, which then edits and publicly exposes the document prior to adoption
The first two topics selected for the issuance of guidance:

- Residential Appraising in Declining Real Estate Markets
- Adjusting Comparable Sales for Seller Concessions

2012 APB Topics

- Identifying Comparable Properties
- Appraising Green Buildings
- Contingent Consideration for Business Valuation
Other Initiatives

- Working with State Regulators on State Appraiser Investigator Training and other topics of interests to States
- MOU with the U.S. Department of Energy on the Valuation of Green Buildings
- *Symposium on Alternative Valuation Products* later this year, probably in June/July.
- Establishment of free video eLibrary
